

Supplier Sustainability Summit

Wednesday August 10th, 2022

Audience: MRP Customers, Suppliers and Employees

Objective: Provide a high level overview on technology, advancements and initiatives around sustainability, specific to the plastics packaging industry

Agenda

- 12:15 **MRP Sustainability Overview**
- 12:30 **KW Plastics** – Andy Johnson – Sales Representative, will share KW's expertise around HDPE and PP resin supply of sustainable solutions to the world's largest brands. With more than 100 million pounds of silo capacity and equipment to process over a billion pounds annually, KW boasts the industry's largest capacities for blow molding, injection molding, extrusion, and blown film. KW is not just a recycling company. They are a recycled resin pellets supplier!
- 1:15 **Braskem** – Heather Martin, Circular Economy & Sustainability, Business Development Manager. Braskem operates in the chemical and petrochemical industry and plays a significant role in other production chains that are essential to economic development. In this context, chemicals and plastics help create sustainable solutions that improve people's lives in areas such as housing, food and transportation. Heather will share the latest on Braskem's sustainability initiatives.
- 2:00 **PureCycle Technologies** – Susan Blackson, Director, Strategic Accounts will share a high-level summary around their patented technology to transform polypropylene plastic waste into a versatile, replenish-able resource.
- 2:45 **Independent Commodity Intelligence Services (ICIS)** – Emily Friedman - Recycled Plastics Senior Editor for ICIS (formerly CDI) will share how ICIS is helping businesses across the energy markets, specifically polypropylene, make strategic decisions, mitigate risk and capitalize on new opportunities. ICIS is a trusted source and benchmark for price information and insight across key commodities markets worldwide.
- 3:30 **Association of Plastic Recyclers (APR)** Kara Pochiro - Vice President of Communications & Public Affairs will share updates on the latest legislative activity, APR Design Guide training opportunities, Circular by Design, and PCR certification programs that impact our industry.
- 4:15 **Panel Discussion** – Moderator led forum to address key concerns and constraints specific to sustainability challenges in our industry.
- 5:00 **Adjourn**

Secure your spot for the Sustainability Summit and the MRP Customer & Supplier Appreciation Golf Outing.
