Why Choose MRP Solutions?

MRP Solutions combines extensive packaging expertise with a consultative approach to reliably uncover customer needs. By understanding business goals, we can tailor smarter, safer and more flexible packaging solutions that reduce cost and increase speed to market, helping businesses capitalize on opportunities.

1. Safety

Everything we do is driven by safety excellence. Permeating every aspect of our business, this safety culture instills confidence in the assurance of supply. We keep commitments we make to one another and continually challenge ourselves by achieving ambitious goals without compromising quality or safety.

2. Quality built in from the beginning

MRP Solutions remains committed to quality through operational excellence. Our manufacturing facilities are ISO 9001: 2015 certified and have achieved certification for food safety, including: ISO22000:2005, PRP and additional FSSC 22000 requirements. Additionally, all of our manufacturing facilities follow GMP guidelines. Because of this commitment, we earn the right to be a partner of choice for many critical closures and jars used globally.

3. Environment, Social, Governance (ESG)

MRP focuses on ESG, delivering confidence along with social conscience in every product. In fact, MRP was selected by a major brand leader to participate in their Supplier Leadership on Climate Transition (LoCT) collaborative focusing on a goal of working together to reduce our impact on the planet. Additionally, MRP holds Silver Ecovadis certification, is a signatory to the Ellen MacArthur Global Commitment and a member of the Association of Plastic Recyclers (APR) as well as the Sustainable Packaging Coalition. Trust MRP to collectively work to articulate and activate corporate purpose.

4. Purposeful agility

MRP is a partner that ensures feedback and needs are heard, providing confidence and peace of mind. Across category and customer, shared purpose inspires unexpected ideas. By understanding our partners' business objectives and design requirements, we can reimagine our approach and tailor our solutions to achieve their desired outcome, applying decades of packaging expertise to move faster, efficiently, and cost-effectively in an ever-changing market. We welcome, collaborate with, and support others by being proactive, approachable and agile.

5. Support

MRP is here to support your every need. Whenever you need design input, need to make a last minute change, an order, or a quick price check - We're here. We support your products by increasing our employees to use them.

6. Proprietary operation model: CAPitalize

Behind this agility is a team always looking for the desired outcome behind the order. A colleague reliably asking why, before exploring how. When we understand what our customers are trying to accomplish, we unlock MRP's ingenuity and begin our operating process: **CAPitalize - Create | Align | Perform**. We uncover a better approach than if we simply asked what they need. And we nurture a culture and team that's **packaging with purpose**.

7. Professional

We offer intellectual acuity in every solution provided. The talented team at MRP incorporates over 75 years of expertise in design, manufacturing and packaging. We provide exceptional service utilizing our dedicated, expert staff to deliver purpose-built solutions necessary to meet ever increasing demands. We conduct our business ethically while demonstrating professionalism and integrity at all levels.

8. Brand-ability

Our design services, supported by the new, Chicago-based MRP Solutions Center, offer the ability to start from scratch in developing the ideal functioning package that not only will stand out on a shelf, but also offers the operational efficiencies necessary to maximize production and cost savings. Choose Custom-Lite for the combination of needed options, and a wide array of stock tooling that creates a faster to market, lower cost branded option. Beyond design, MRP can collaborate to offer solutions for service, inventory and order management, etc.

9. Financially sound minority led ownership

MRP is owned by Clearlake Capital, a Minority Business Enterprise (MBE) certified by the National Minority Supplier Development Council (NMSDC). With a diverse global portfolio including investments throughout the packaging sector, MRP is supported by continued investment capacity expansion, molds, presses, lining machines and other assets to enhance and automate operations.

10. Diverse product portfolio

MRP offers the most diverse portfolio of stock components with an expansive line of sizes, styles, colors and liner options available. Focusing on purpose-built packaging solutions affords value added benefits like convenient dispensing and on-the-go features that create repeat buyers.
